

Drinking Water Systems for Small Communities

Client: Parkbridge Lifestyle Communities Inc.

Year: Ongoing

SERVICES PROVIDED

CCTA has been providing engineering services to Parkbridge Lifestyle Communities Inc. since 1997, including the work necessary to ensure Parkbridge's numerous drinking water treatment systems are in compliance with Ontario Regulation 170/03 - Drinking Water Systems and associated Regulations and Procedures. Specific tasks included preparing sampling and analysis programs, assessments of existing systems, completing compliance inspections and preparing Engineering Evaluation Reports, preparing Annual Reports and providing assistance and advice during Ministry of the Environment inspections. In most instances upgrades have been implemented or entire systems have been replaced. That work has included design, contract administration, construction inspection, and commissioning. Projects include: Antrim Glen, Beacon Bay Marina, Beverly Hills Estates, Bramhall, Country Meadows, Huron Haven, Joy Vista Estates, Lonesome Pines, Martin Grove, Red Oak, Rockhaven Community, Sama Community, Shady Acres, Silent Valley, Spring Lake, Wasaga Dunes, Wasaga Pines and Wye Heritage Marina.
