

Innisfil Heights Watermain Replacement

Client: Town of Innisfil

Year: 2014 - 2016

SERVICES PROVIDED

CCTA completed the design, prepared contract drawings, obtained approvals, and provided support during the tendering process and construction period for the replacement of 6.1 km of 200 mm dia. to 400 mm dia. watermain in a commercial and residential servicing area. The works were completed under three construction contracts in 2014, 2015 and 2016 (currently being tendered). The project involved sections of installation of watermain by horizontal directional drilling (road crossings) and bore and jack (two rail crossings) methods. Review agencies included City of Barrie, Lake Simcoe Region Conservation Authority, Ministry of Environment & Climate Change, Ministry of Transportation, and Town of Innisfil.

Key Staff: Bryan Stanton, Jonathan Webb, Mehrdad Shooshtary, Roger Embree
