

## Antrim Glen Estates

Client: Parkbridge Communities

Year: 2008

### SERVICES PROVIDED

This project involved the design, construction drawings and contract administration for a 35 ha development consisting of 290 fully serviced modular home sites and a 500 square metre recreation center. The project also involved upgrades to the on-site water distribution system and sewage treatment works. Bedrock lies just below the surface and the property is divided by two major gas pipe lines and falls under the jurisdiction of two conservation authorities. These factors contributed to a challenging design and approval process. The project is divided into five phases of construction with the fifth phase being completed in the spring of 2009. Total construction value was \$3.0M.

Key Staff: Kevin Sansom, Suzanne Troxler
