

Trillium Forest Subdivision

Client: Zancor Homes

Year: 2000 - 2007

SERVICES PROVIDED

Trillium Forest is a development near the western border of the Town of Wasaga Beach, incorporating 195 residential lots and 14 commercial block units. The development incorporates extensive green space areas, and a local school site.

Our design and construction inspection services addressed approximately 4 km of roads with storm sewers, sanitary sewers and watermains. The surface water management works included a stormwater management facility servicing a 150 ha drainage basin, and a stormwater diversion structure which services a 350 ha drainage area plus improvements on the adjacent Highway 26.
