

## Seguin River Bridge Evaluation

Client: Municipality of McDougall

Year: 2011

### SERVICES PROVIDED

CCTA was retained by the Municipality of McDougall to complete a review of the existing load restriction for the 3 span concrete girder bridge over the Seguin River to ascertain if it could be increased. CCTA consulted with the MTO Bridge Office and Regional Office and obtained and reviewed the previous inspection records and recommendations for load restrictions. Following a detailed visual inspection and structural review the existing load restriction was increased to a triple load restriction posting which will allow the Municipal Works vehicles to use the bridge.
