

## Collingwood Office Building

Client: 2057870 Ontario Limited

Year: 2006

### SERVICES PROVIDED

The architect (J H Rust) conceived a glass cube for the two storey, 32,000 sq. ft., office building located in Collingwood's industrial park. The desire was to minimize the appearance of the structural frame and any lateral bracing.

CCTA designed a structure with gravity load bearing steel frame with reinforced concrete elevator/stairwell cores to resist the lateral loads.

Key Staff: Mike Sanfilippo
