

Richvale Athletic Fields

Client: Town of Richmond Hill

Year: 2010

SERVICES PROVIDED

In 2006, Envision-Tatham (landscape architects) prepared the park master plan for the Richvale Athletic Fields. This 7.2 ha park is located in the heart of the well established Richvale community and has long been an active recreational sports amenity for the surrounding residents and adjacent St. Charles Garnier Roman Catholic School. In addition to the sports amenities, the park is home to the Richvale Athletic Community Centre and shares a naturalized boundary with the Patterson Creek corridor.

Working closely with Town staff and the local community, CCTA assisted Envision-Tatham in addressing issues of vehicular and pedestrian access, trails and parking, and soccer and baseball facility improvements. Specifically, CCTA completed detailed grading and drainage design to safely convey surface water flows and eliminate historic drainage issues associated with the athletic fields. Implementation and construction of the field improvements are expected to commence in the spring of 2010.
