

Alcona North & South Master Drainage Plans

Client: **Town of Innisfil**

Year: 2010 - 2012

SERVICES PROVIDED

As part of a multi disciplinary project team, lead by Sorensen Gravelly Lowes Planning Associates, CCTA assisted in the development of a Secondary Plan for the Alcona North and South areas for the Town of Innisfil.

CCTA developed Master Drainage Plans for each of the Alcona Secondary Plan areas to satisfy the requirements under the Planning Act and Lake Simcoe Protection Plan. The work completed as part of the study includes:

- Evaluation of the existing and proposed drainage conditions
- Identification of opportunities and constraints in the study areas
- Development of preferred drainage plan in consultation with Lake Simcoe Region Conservation Authority and other stakeholders
- Preparation of Master Drainage Plan Report
