

Ramara Stormwater Management Master Plan

Client: **Township of Ramara**

Year: 2012 - present

SERVICES PROVIDED

CCTA is currently preparing a Stormwater Management Master Plan (SWMMP) for the settlement areas in the Township of Ramara. The SWMMP will satisfy the requirements of Policy 4.5 of the Lake Simcoe Protection Plan and be in accordance with the Lake Simcoe Region Conservation Authority Implementation Guidelines.

The work completed to date includes background data review and study area characterization. CCTA will continue to advance the project through the required steps including evaluation of existing SWM infrastructure, establishing a recommended SWM approach and developing an implementation program.
